

Hydra® Edge Mounting

Hydra® Edge mounting using HMS may require an appropriate adapter kit. Adapter kits will fit either the 44 or 68 sized Hydra® Edge Lights. Use the chart below to identify which product or adapter kit is needed to mount your light. One adapter kit/mounting kit is needed per Hydra® Edge. HMS multi-light kits may allow for mounting multiple lights using multiple adapter kits.

Configurations

Edge Single Light Mounting

For mounting a single light to your rimless tank up to 1.2" (3cm).

Flexarm Mounting

The Hydra® Flex Arm is the simplest and easiest Edge 44HD mount.

Edge Multi Mount

Great for mounting multiple lights on one rail across your tank.

HMS Hanging Kit

An elegant solution to hang multiple Hydra® Edge lights over your tank.

Edge Hanging Kit

An elegant solution to single light suspension.

Hybrid Mount

Combine Hydra® Edge with Blades using the Hybrid mount.
